decline and fall of the Commonwealth
may safely be attributed to the sedition of
Gracchus, and to the perpetual dictatorship
of Sulla. The tragic death of
Pompey was a Pagan deed, but it has
significant teaching at this hour. Having

take leave of Cornelia, who wept at his
going, he read two verses of Sophocles,
fatefully signifying that he who trusts
his freedom to a tyrant, from that moment
becomes a slave. Then followed the
total extinction of the Roman Republic.

President Wilson knows this, and the
American Chief's luminous declaration
on the possibilities of a League of
Nations is of a very truth a strange
doctrine to put before a people whose
only conception of justice is that of
might being right. Jus divinum like
jus gentium is utterly disregarded in
Germany, though the people of the
United States well know that the spirit
of the men who gathered at Runnymede,

and the men who struck blows at
Marston Moor, went into the making
of the American Declaration of
Independence. Now in a concluding
word—Can any reasonable person marvel
at Lord Derby's refusal ever again to
shake hands with a Hun?

LOCAL AND OTHER
NOTES.

COTHESTON is crammed with visitors, and
the market train to Barnard Castle, on
Wednesday morning, was inconveniently
crowded.

The growth and bloom of roses at the Bowses
Museum Park are again very fine, and it is
interesting to note, in the matter of rose-
growing, that the "Pax" (peace) new gold
medal must-rose exhibited at the National
Society's show at the London Scottish Drill
Hall, has semi-single white blooms, lemon-tinted
in the bud.

ALREADY large bookings for lodging accommo-
dation at Barnard Castle and generally in
Teesdale, for August Bank Holiday week, have
taken place.

A LOCAL gamekeeper says there is an
abnormal crop of rabbits in the lower part of
Teesdale, the breeding season having been
most favourable.

So far we have seen little of mushrooms in
the Tees Valley this year, although Sunday
morning witnessed the collection of several
baskets in that neighbourhood. The edible
fungus is selling at Covent Garden at from
three to four shillings a pound.

MR. AND MRS. OLIVER, of Garden House,
Stalport, have received the sad news from
Egypt that their second son, Robert William,
died of burns on June 20th. He volunteered
for active service from Armstrong's works,
Newcastle, and sailed for the East on the
ill-fated "Transylvania," which was torpedoed.

The following Barnard Castle scholars have
been awarded County Council prizes at the
North Eastern County School:—J. W. Bell,
E. Clement and Barnard Evans (Barnard
Castle Council School, master, Mr. W.
Emerson); A. Appleby, A. J. Wilson, J. H.
Dunn, G. H. France, J. W. Jones, A. E.
Nicholson and W. E. Nicholson (Central
England School, master, Mr. W. Rankin).
Sixteen Scholarships have been awarded to
L. Duffy (Roman Catholic School, mistress,
Miss Duggan); G. L. Woodhams (Startforth
Council School, master, Mr. R. Allison).
Flounders' Scholarships, of £20 tenable for four
years, have been awarded to R. Clatworthy.

CAPT. H. SHEARWOOD, of Bishop Auckland, has
been appointed adjutant of the 3rd Volunteer
Battalion Durham Light Infantry, in succession
to Capt. F. C. Slater, who has resumed duty
with the 5th Durhams.

THE REV. J. F. HODGSON, M.A., D.C.L., who
has been Vicar of Wotton-in-the-Forest for
forty years, will complete his ninetieth year on
Monday.

MISS NETTLETON and the scholars of Cockfield
Council School (per Miss Gardiner), have sent
a contribution of money to Lady Anne
Lambton's Durham County Work Depot.

The interest taken locally in lepidoptera is
increasing, and the other day the pupa of
what would appear to have been the dragonfly
was sent from the Summit to Barnard Castle
station. The aurelia was three inches long
and about half-an-inch deep, with diamond-
like spots, as disclosed under a microscope.
It devoured vegetable leaves with avidity.
The dragonfly, if the assumption be correct,
is often seen on the wing in Doopdale, and
is of a family of insects with long bodies, narrow
gauze-like wings, large heads and eyes, strong
mandibles, and of swift flight. It is singular
to note that a spider brought from the Mount
of Olives was sold at Newport Red Cross tote
for 2/6.

THE 27th Durham Light Infantry Fire
Savings Association, which was formed on
March 11th, has already reached £2,000, and
has applied for the name of the Unit to be
inscribed on an aeroplane.

A SPECIAL meeting of the Urban Council was
convened for Friday night to consider the
questions of appointing a coal and lighting
overseer, and part-time voluntary labour for
farm-work. In the absence of a quorum no
business was transacted.

MR. H. WILCOCK, one of the North Eastern
Railway engine drivers, who resides at No. 15,
Queen-street, Barnard Castle, informs us that
whilst holiday-making on the banks of the
Swale, in the vicinity of Newby Wiske, he was
greatly surprised and interested in the
phenomenal growth of corn, as well as
turnips and potatoes, he saw in that district.
Some of the straw was well over six feet in
height, with ears well filled and of large size,
whilst the turnips were unusually large for this
time of the year, and the potatoes gave promise
of a heavy crop. Some of the land, he was
informed, had not been in cereals for over 48
years. The farmers living about there aver
that they had not seen such a good prospect
during their lives. Mr Wilcock had presented
to him a few specimens of this extraordinary
produce, and will gladly show them to anyone
interested.

MR. HARRY CULLEY saw a large otter climb-
ing over the warren at the Mains Mill on
Sunday morning, and a fortnight ago saw an
otter in another part of the Toes.

SOME capital catches of trout have taken
place during the last week, owing to floods in
the local rivers and streamlets.

THE latest item is that the battle has broken
out in another part of the Western front.

At the Barnard Castle Police Court, on
Thursday, Private Stephen Pemberton, an
absentee from the 3rd Durham Light Infantry,
was remanded to await an escort. The same
offence was committed on the 18th of May.

"I am between the devil and the deep sea,
my lord," declared Mr Patrick Hastings, K.C.,
at the Old Bailey. "Then stick to the devil,"
said the Common Sergeant (Mr H. F. Dickens).

THE REV. P. MCPHAIL, the newly-appointed
minister to the Barnard Castle Primitive
Methodist Church, began his ministry in the
Newgate chapel on Sunday. There was a very
large congregation at the evening service, when
Mr McPhail discoursed on the text, "What
think ye of Christ?" He asked who was this
Jesus of Nazareth? Was He an evolution from
beneath or an incarnation from above? That
was the battle-ground of theologians. Christ
really did live—that was a fact, for who could
have imagined a perfect man if such an one
had not existed? But was He the son of
Joseph or of God? Christ was an ideal
character. He was without sin. His was a
perfect life, lived to influence others in the
way that God would have them live.

"THE fruit crop in Teesdale is notoriously
short this year," remarked Mr R. W. Raine, on
Wednesday, at the Food Control meeting.

LESLIE CALVERT, Station House, Lartington,
pupil of Mrs McCardell, has obtained a first-
class pass certificate for pianoforte playing at
Darlington, July 20th.

THE Record Office, York, under date 17th
July, states that no further news has been
received of Sergeant John W. Stout, of Barnard
Castle, who was reported missing on the 8th
October, 1917, and he is now presumed to have
been killed in action. The gallant soldier is
the fourth of six brothers who have given their
lives in their country's honoured cause. Of
the others, one is reported missing and the
other wounded. The greatest sympathy is
felt for the bereaved wife and aged father and
mother.

AN interesting farming action will be tried
in the local County Court Monday, involv-
ing the question of rights between outgoing
and incoming tenants.

SPEAKING on Monday at the Darlington,
Durham and North Riding Chamber of Agriculture,
Lord Barnard, who presided, said the
whole basis of the present position of farmers
and the cost of production was the Corn
Production Act of 1916. He did not complain
of the charges. All they asked was that their
present position should be left as it is in the
order to pay higher wages farmers must be
allowed sufficient profit. A resolution was
unanimously passed petitioning the Govern-
ment to take into consideration the question
of an all-round advance in the prices of
controlled agricultural produce.

At a sale at Chicago of exported shorthorns,
bought in this country, "Rooney," a red
yearling sire, bred by Captain Joffie, Newbury
Grange, Darlington, was sold for £2,400.

AMONGST those who are enjoying a brief rest
from the front, at their homes at Barnard
Castle, are Second-Lieutenant J. Stemburg,
George Douglas, Lance Corporal R. H. C.
Watson and Miss Walton (hon. secretaries),
and Mr Dent (hon. treasurer). "The income for
August was £6 9s., made up of fees, 24 1s.;
members' subscriptions, 21 10s.; subscriptions,
2s." The Nurse reported that 200 visits had
been paid to 13 patients.

The last load of timber has been brought
from Duke's Wood, Hutton-in-the-Forest, the
machinery being sent to the next place, which
is Wolsingham.

Interesting Marriage at the Wesleyan
Church.
At the Wesleyan Church, Barnard Castle,
on Saturday morning, a double marriage was
solemnized. Engineer-Lieutenant R.
Mansfield, R.N.R., youngest son of Mr and
Mrs W. J. Mansfield, of Greenwith, and Bertha,
second daughter of Mr and Mrs C. E. Raine, of
Barnard Castle. The Rev. Robinson Lang
officiated. The bride was attired in a gown
of white crepe-de-chene, with well and orange
bouquet. The bridesmaids, Miss Olive Raine,
sister of the bride, and Miss Cecile Mansfield,
sister of the bridegroom, wore pale lavender
dresses and pelerine hats. The bride carried a
shower bouquet of white eucharistic lilies,
sweet peas and heather, and the bridesmaid,
pale mauve and pink sweet peas, the gifts of
the bridesmaids. The bridesgroom was attended
by his brother, Mr W. E. Mansfield. After the
ceremony the wedding breakfast was held at
the Greta Tea Rooms. Second-Lieutenant
C. W. Raine was able to attend his sister's
wedding; but unfortunately Lieut. E. E.
Raine could not be present, he being a
prisoner of war in Germany. Later in the
day the happy pair left for Harrogate and
London. There were many handsome and
beautiful presents.

IMPORTANT NOON TO LADIES.

STARTFORTH RURAL COUNCIL.
THE BAIL HILL ROAD AFFAIR: REPORT
OF THE COMMITTEE.

The monthly meeting of the above Council
was held on Wednesday, Mr J. Peacock
presided, and there were also present Messrs
Garth, Bayles, Lodge, Dent, Furnas, Allison,
G. Walton, S. E. Hogg, Ioson, Waller, Scott,
Alderson, W. Errington, Metcalfe, Raine
(High-street), Bowes, and T. O. Nicholson
(deputy-clerk), T. E. Plews (surveyor), and
W. Porter (inspector). The bank balance
amounted to £1,237 15s 11d.

Alleged Deviation of a Footpath Near
Mickleton.
The Surveyor reported that the appointed
committee had inspected the manure heap
lying on the roadside near the railway bridge,
on the Ball Hill road, Mickleton, on Tuesday,
the 25th of June, when there were present
Messrs Bayles, Ioson and Mr Waller, and the
Surveyor, as representing the Council, and Mrs
Dent, of Low Green, and Mr Dent of High
Green, as representing the adjoining owners.
The committee were agreed that the manure
heap had been deliberately placed partly on
the public footpath which leaves the highway
at this point, causing obstruction, and
deviating the path from where it had originally
run, to the detriment of users. It was agreed
that the manure heap was to be removed to
the distance from the highway, it being deposited
on the road side, which is not a proper place
for depositing manure or rubbish. No liquid
was running from the heap, or foul smell
detected when the visit was made.—The
committee recommended that Mr Dent, of High
Green, Mickleton, be given notice to remove
the heap not later than the 1st October next,
and, failing to do so, the Council take necessary
steps for its removal, and that he deposit no
more manure at this place.—The report was
unanimously adopted.

Fuel and Lighting Overseer.
The Clerk having read the order, said it
would be necessary to appoint a Fuel and
Lighting Officer for the district, the expenses
being discharged from imperial sources up to
an average of two-thirds of the maximum
outlay, the remaining out to be discharged
out of the rates.—The Chairman: It will not
affect Startforth District Council as much as it
does other places. In fact scarcely at all.—
Mr Bayles said there were coal depots, which
amounted to storage.—Mr Dent: We have not
had a variation for the last 12 months.—
The Clerk: You are not bound to appoint a
committee at present, but you must appoint an
overseer.—The Chairman: In the Bowses
district no one individual can get a wagon of
coal for himself. He must join with others.—
Mr Metcalfe: The stationmaster will only
allow half-a-wagon to one person.—Mr Plews,
the surveyor in his temporary absence, was
appointed to the post, and, on again entering
the room, was apprised of the fact, and asked
what he would do the work for?—Mr Plews:
The maximum of what is allowed, plus clerical
assistance. The district is not heavily
populated, but it takes a lot of going over.—
The Chairman: To my mind it seems a waste
of money.—Mr Bowes: I think so too. It is
nothing else.—Mr Garth moved that £20 a year
be offered to the Surveyor.—Mr Plews: I beg
to thank you, but I cannot accept it. I think
there will be a lot of work, and it is nothing
for a start. I am not seeking it in any way,
and I want the Council to understand that.—
On a motion by Mr Waller it was agreed to
journey the matter in view of possible amalga-
mation with the Urban Council.

Illness of Dr. Nelligan: Explanatory Letters.
The following note was read from a member
of Dr. Nelligan's family (R. N. Nelligan): "I am
sending in the monthly report on behalf of my
father, Dr. Nelligan, who has been ill in bed for
the last fortnight. Unfortunately the monthly
report for births and deaths is not yet to hand.
The cases of infectious disease are as follow:—
Measles, 1; diphtheria, 2; tuberculosis, 1;
scabies, 1. The report from 20th of May to
17th of June contained the following informa-
tion:—"Between these dates I received 3
notifications, 2 of measles, 1 of diphtheria and
1 of tubercular disease of the spine. 11 births
were registered in May, and 7 deaths were
also registered in the whole district. I regret
that I was unable to do in this report
last month, as I was attacked suddenly by
influenza, on June 15, and was quite unable to
transact work of any kind." Then, from the
17th June to the 15th July, Dr. Nelligan's report
set out: "I received 2 notifications, 1 of
measles and 1 of diphtheria. 5 births were
registered in June in the whole district. 2
deaths were also registered in the whole
district, severe epidemic of influenza, has
broken out in various parts of the district."

Death and Funeral of Mr William
Borrowdale.
On Monday afternoon, in the Church
Cemetery, the remains of the late Mr
William Borrowdale, 10, Marshall Street,
Barnard Castle, were laid to rest. The Vice-
consul, and the chief mourners included
Mrs Borrowdale, widow; Messrs Robert
Borrowdale, brother; and Tom, Robert,
Matthew and John Borrowdale, nephews, and
Private Mallinson, the nephew of the widowed
Mrs Borrowdale, and others. A beautiful
wreath was sent by Mr and Mrs Charles
Wilson of the Victoria Cinema, and a lovely
cross from Mrs Mallinson and family, Keswick.
The deceased, somewhat suddenly, succumbed
to an attack of pneumonia, last Friday, at the
age of 69 years. He was the youngest son of
the late Mr and Mrs Joseph Borrowdale, of
Startforth, and for 44 years was employed by
Messrs R. Borrowdale and Son, contractors,
joiners and cabinet-makers, Newgate, and
later in the capacity of foreman. The
deceased was a first class benchman,
and a thoroughly competent and even natty
joiner, thanks to the careful training of Mr T.
Borrowdale, the head of the firm. The late
William Borrowdale was a total abstinent,
punctilious as a time-keeper, odd fellow of
many years' standing, and a really excellent
amateur photographer. He married Miss Jane
Lambton, Lorg Marton, whose father, singular
to say, was also a joiner and under-
taker, who survives, but there is no issue.
The union was a marriage of true minds, and
impediments to happiness were not admitted.
Beyond the deceased attended the
Congregational Sunday School.

Barnard Castle Farmers' Red Cross
Sale.
A further step in the arrangement of the sale
for the Red Cross Funds in which the farmers
of Barnard Castle and Teesdale are taking a
deep interest, was made at a meeting of the
committee on Wednesday. It was reported
that interest had been despatched by the
prospect of a prize-drawing for War Savings
Certificates, and promises of certificates as
prizes have already been made. The date of
the sale is Wednesday, August 29th.

UPPER DALE NOTES.

[BY OUR OWN CORRESPONDENT.]
The interment took place at Middleton, on
Friday last, of the late Thomas Bradwell,
California Road, who died on July 16th, at the
age of 60 years. Deceased was for a number
of years employed as a coal-miner at Kildoe pit,
but retired some 18 years ago, and came to
reside at Middleton, his native home, in 1915.
He was a keen angler and could often be
found at his favourite sport.

Another meeting in connection with the War
Aims was held in the Market-place, Middle-
ton-in-Teesdale, on Monday night. Mr J.
Brotherton, Galford, was the speaker, and said
that Great Britain was in no way responsible
for the outbreak of war, but had all in their
power to avoid it, but having pledged her
word to guarantee the neutrality of Belgium,
we had no other alternative, and now must,
along with her Allies prosecute the war to a
successful issue. There was a large company
present, who listened attentively to the speaker
for over an hour.

The annual camp meeting in connection with
the Middleton Primitive Methodists was held
on Sunday, but owing to the boisterous weather
the usual procession of the streets during the
morning had to be abandoned, and the after-
noon service was held indoors. In the morning
the Rev. S. Chan (the newly-appointed
minister) preached an inspiring sermon, and in
the afternoon addresses were given by Messrs
J. J. Kipling, A. Collinson and J. Bellas. In
the evening a testimony meeting was held, and
a short sermon was delivered by Mr Chas.
Capital companies assembled at all the
services.

Mr and Mrs W. Kidd, Hill Top, Eggleston,
has received news that their son, Private F.
Kidd, who was reported missing on April 15th,
is a prisoner of war in Germany.

Darlington Hospital and National
Sailors' Flag Day.
To the Editor of the "Teesdale Mercury."
Dear Sir, Will you kindly insert the follow-
ing in your next issue? The collection for
Darlington Hospital, June 19th, was £23 10s 6d,
and a donation from a friend made it up to £20,
which has been sent to the treasurer of the
Darlington Hospital. The collection for the
National Sailors' Day was £24 6s 3d; subscrip-
tion, Mr Watson, £1 10s; Mrs Watson's stall,
25 9s; excursions, friends, 17s; Mr Barker,
2s 6d; making a total of £42 4s 6d, which
amount has been sent to the proper quarter by
the treasurer of the local association. I beg
to thank everyone who has helped to make
both days such a great success. I would
especially emphasize one appropriately
altruistic incident. It was a weird spectacle to
observe the boys of the Metropolitan Sailors'
Orphanage line-up at the collecting-box and
drop their pennies in. What a noble example
of these fine little chaps! May I ask all to
do the best for us on our next flag day, which
is to be held on August 7th, for that noble
institution, the Royal Infirmary, Newcastle-on-
Tyne, which is doing so much good work for
our soldiers and sailors, as well as a grateful
civil population?—Again thanking everyone,
including the Press, for kind help, believe me,
yours sincerely,
C. HEDLEY,
Chairman of the War Emergency Committee,
17, Galgate, 23rd July, 1918

BARNARD CASTLE RURAL FOOD
CONTROL.
MR R. W. RAINE presided over a meeting of
the above body, on Wednesday. Officers
present were Mrs Brown, Messrs Blackett,
Porter, Thompson, Adamson, Hett, Davidson,
Bainbridge (executive officer), and Brown
(inspector).—There were ten applications for
extra sugar for fruit preserving, and there
were only 4lbs. to dispose of.—It was left in
the hands of the Executive Officer and
Inspector to allocate. It was pointed out that
if people who held sugar permits did not
purchase their sugar before August 17th, they
would be of no use.—The sub-committee
recommended the allowance of 60 applicants to
change their retailers.—The Commissioner
announced the temporary appointment of a
sub-office at Middleton.—The Executive Officer
said the ration books had been issued, and
people were allowed to use three coupons for
meat, but no more, and the value of the coupons
were 7d each.—In compliance with a request
from the War Agricultural Committee the
maximum price of retail farm butter was
extended from 2s 3d to 2s 6d per pound. The
Chairman said the pastures were generally
gone off, but he was fully convinced that
the committee were justified in bringing the price
down to 2s 3d when they did.—The Co-operative
Society at Middleton was granted permission
to sell bacon without coupons, at a reduced
price, as it was likely to go bad.

EVERY WOMAN
should send two stamps for our 32-page Illustrated Book
containing valuable information for all irregularities and
suppression may be entirely avoided, or removed by simple
means. Recommended by eminent Physicians as the only
safe, sure, and genuine remedy. Never fails. Thousands of
stimulating testimonials. Established 1862.
