

ABOUT TRACTORS

94% of all wheeled tractors produced in the United Kingdom during the war were Fordsons.

Since the war 80,000 Fordson Major Tractors have been made at Dagenham. 70% of this mammoth postwar production has gone to British farms.

Yet . . . £6,865,000 worth of Fordson Major Tractors have been exported since VE-day.

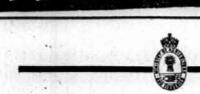

The January production of Fordson Major Tractors at Dagenham was an all-time record—no less than 4,165.

Fordson Tractors run on Vaporising Oil, not Petrol. Vaporising Oil comes largely from Sterling areas. It is estimated that Fordson Majors alone (to say nothing of the older Fordsons) are saving the nation over 70 million gallons of

CRISIS YEAR Tackle those "Warbles" at once

Immediately you see signs of Warble Fly maggots on the backs of your beasts treat them without delay. All owners or persons in charge of infested cattle are required by law to do this-Warble Fly (Dressing of Cattle) Order, 1948. Here is what you must do:

Apply an approved dressing

containing powdered derris root and soap. You can get it from many chemists and most suppliers of farm

- Dress once a month until June 30 if maggots are present for so long.
- Dilute dressing with water immediately before use.
- Dip cloth in liquid: rub round hard over each breathing hole. This cleans hole and lets solution get to maggot. Lavish dressing over whole back is of little use.

Losses from hides damaged by Warble Fly grubs amount to over £100,000 a year-apart from much meat lost to the nation.

Conservative Annual Dinner.

Signs of the renewed interest aroused in the Men's Branch of the Barnard Castle Conservative Association were evident at the that the Society's assets had increased by annual dinner at the Baliol Cafe on Wednes- £6,051,165, making the total assets just day evening. There was a large attenuance of members and their wives and friends, and also as guests were Mr Reay smith, Chairman of the Bishop Auckiana conservative Association, and Mrs Reay smith, and Lord Lambton, prospective candidate, who only arrived back in this counry from America on Tuesday. Mr A, E. Eason acted as Chairman and in

extending a welcome to all present stressed he need for full co-operation between the various branches of the Association-Men's Branch, Ladies' Branch and the Young Conservatives. Only by such co-operation could they hope to win the seat and so help o bring about the salvation of the country In a short speech, Lord Lambton said that during his recent visit to America he had oeen astounded that so little attention was paid there to the views of Britain on world affairs. Britain's views on important matters were barely mentioned in the newspapers and frequently consisted of a small paragraph tucked away under an advertise ment, and even these small items invariably contained comments detrimental to this country. This showed the depths to which the Labour Government had brought the

prestige of this country.

If the Conservative Party were returned to lower they would bring about a more satis actory state of affairs, and at home would cut Government expenditure and thus help the country.

He thought that there was every chance of the Ward winning the next election.

DR. DALTON AS OPPONENT. Mr Reay Smith, Chairman of the Bishop Auckland Conservative Association, sain that prior to the last election there was no Conservative Association at Bishop Auck. iand. A small Liberal National Committee had a templed to put up a fight, but Dr Dalton had been elected. It was, however a fact that of all the seats in the North won by Labour Bishop Auckland was the only one in which the majority was not increased Shorily after the election a Conservative Association was formed and he was asked to be the Chairman. To-day the Auckland

Association was self-supporting. It was one of six constituencies in Durham which had at one time worked from a central office and port of the Movement as a great social and Margaret Jones, Dorothy Wright, Eva Horse t was the only one which now had its own ffice and its own agent. Mr Reay Smith said he could appreciate the feelings of the Barnard Castle people at being merged into Bishop Auckland, but mancial year." they had no cause to feel despondent. They would still have Lord Lambton as their can

didate and Mr Hills as their Agent, and the fact that they would have Dr. Dalton as their opponent instead of Mr Lavers should add to their keenness to win the election, He considered that the only difference beween Communism and Socialism was one A vote of thanks to the speakers was proposed by Mr J. Ascough, who said that the
